A novel of savage satirical humour. A failed Polish author expects and looks forward to death and courts his demise ultimately in self-immolation.

"It begins like a storm-with that pensive heavy stillness of dead air pressing in, with a soft rustle of the wind just barely stirring in the trees, a bruising over of the summer sky, a somber gray and yellow horizon glittery with lightning, bloated full of thunder, swept by sheets of rain-it begins when old man Krejci bumps his head. And then-like that same storm spent, blown past to leave the ground and the air around feeling new and fresh and washed crisp clean-the next morning when Meena peeks into her father's sun-spilled bedroom to find that he has not moved, but is still lying on the bed with his head flat back on the pillow, in just exactly the same way she left him there eight hours before, everything will be changed..." It begins when Meena Krejci, not sure what to do and fearing she'll be blamed for the injuries that have caused her father's death, panics and takes flight, driving west across Nebraska and into Colorado, where she encounters an apocalypse-predicting madman, his captive sister-the troubled young woman in whose release Meena will create a violent version of rebirth for herself-and a bear. Told through alternating narratives-a portrayal of the last few days of Meena's life and an account of the events in the past that have brought her to where she is now-this is the story of a woman running away from home for the first time and the strong, nearly universal desire to shed one's identity to become somebody else.

Baxter Zevcenko's life is pretty sweet. He's making a name for himself as the kingpin of his smut-peddling high-school syndicate, the other gangs are staying out of his business, and he's dating the girl of his dreams, Esme. But when Esme gets kidnapped, things start to get seriously weird, and the only man drunk enough to help is a bearded, booze-soaked, supernatural bounty hunter that goes by the name of Jackson 'Jackie' Ronin. Plunged into the increasingly bizarre landscape of Cape Town's supernatural underworld, Baxter and Ronin team up to save Esme. On a journey that takes them through the realms of impossibility, they must face every conceivable nightmare to get her back, including the odd brush with the Apocalypse.

The Polish Complex takes place on Christmas Eve, from early morning until late in the evening, as a line of people (including the narrator, whose name is Konwicki) stand and wait in front of a jewelry store in Warsaw. Through the narrator we are told of what happens among those standing in line outside this store, what happens as the narrator's mind thinks and rants about the current state of Poland, and what happens as he imagines the failed Polish rebellion of 1863. The novel's form allows Konwicki (both character and author) to roam around and through Poland's past and present, and to range freely through whatever comes to his attention. By turns comic, lyrical, despairing, and liberating, The Polish Complex stands as one of the most important novels to have come out of Poland since World War II.

Despite wars with Iraq and Afghanistan, as well as 9/11, the United States' dependence on foreign oil has kept the nation tied to the Middle East. A scientist has developed a cure for America's addiction—a slow-acting virus that feeds on petroleum, turning it solid. But he didn't consider that his contagion of an Iraqi oil field would spread to infect the fuel supply of the entire world... In Los Angeles, screenwriter Dave Marshall heard this scenario from a retired U.S. Marine and government insider who acted as a consultant on Dave's last film. It sounded as implausible as many of his scripts, but the reality is much more frightening than anything he can envision. An ordinary guy armed with extraordinary information, Dave hopes his survivor's instinct will kick in so he can protect his wife and daughter from the coming apocalypse that will alter the future of Earth—and humanity..

Flor Edwards has been called "the real life Kimmy Schmidt." She delivers an impartial recount of a childhood overshadowed by the fear of death and the impending apocalypse, and unimaginable challenge of adapting to life after leaving a cult.

"By the author of the award-winning *To Be a Machine*, a deeply considered look at the people and places in confrontation with the end of our days. We're alive in a time of worst-case scenarios: The weather has gone uncanny, volatile. Our old post-war alliances are crumbling. Everywhere you look there's an omen, a joke whose punchline is the end of the world. How are we to live in the shadow of such a grim future? What does the world hold for our children? What might it be like to live through the worst? And what is anybody doing about it? Dublin-based writer Mark O'Connell ("wryly humorous, cogently insightful"--NPR) is possessed by these questions. In *Notes from an Apocalypse*, he crosses the globe in pursuit of answers. He tours survival bunkers in South Dakota. He ventures to New Zealand, a favored retreat of billionaires banking on civilization's collapse. And he bears witness to those places where the future has already arrived--real-life portraits of the end of the world as we know it. In doing so, he offers us a unique window into our apocalyptic imagination. Part tour, part pilgrimage, *Notes from an Apocalypse* is an affecting and hopeful meditation on our alarming present tense. With insight, humanity, and wit, O'Connell leaves you to wonder: What if the end of the world isn't the end of the world?"--

This long-awaited sequel to the bestselling *Zombie Apocalypse!* is once again a 'mosaic novel' which weaves together contributions from big-name horror writers in the form of essays, reports, letters, official documents and transcripts to create a coherent and compelling narrative. In volume one old-school, flesh-eating zombies spread 'The Death' around the world. Now, the fightback begins. Praise for *Zombie Apocalypse!*: Clever, gruesome, poignant and pacy . . . it's hard to avoid this book's clutches - much like the shambling corpses that fill its pages. *Financial Times*. 'An innovative, collaborative venture.' *The Bookseller*. 'Moving, funny, terrifying and strikingly original.' *SFX*.
