File Type PDF

Randall

Why have states throughout history regularly underestimated dangers to their survival? Why have some states been able to mobilize their material resources effectively to balance against threats, while others have not

File Type PDF

Randall

been able to do so?

The phenomenon
of

"underbalancing" is
a common but
woefully
underexamined
behavior in
international
politics.

Underbalancing
occurs when states
fail to recognize
dangerous threats,

File Type PDF

Randall

Choose not to react to them, or respond in paltry and imprudent ways. It is a response that directly contradicts the core prediction of structural realism's balance-of-power theory--that states motivated to survive as

File Type PDF

Randall

autonomous
entities are
coherent actors
that, when
confronted by
dangerous threats,
act to restore the
disrupted balance
by creating
alliances or
increasing their
military
capabilities, or, in
some cases, a

File Type PDF

Randall

combination of both. Consistent with the new wave of neoclassical realist research, Unanswered Threats offers a theory of underbalancing based on four domestic-level variables--elite consensus, elite cohesion, social

File Type PDF

Randall

Schmitter, and
regime/government
vulnerability--that
channel, mediate,
and redirect policy
responses to
external pressures
and incentives. The
theory yields five
causal schemes for
underbalancing
behavior, which are
tested against the
cases of interwar

File Type PDF

Randall

Britain and France,
France from 1877
to 1913, and the
War of the Triple
Alliance

(1864-1870) that
pitted tiny
Paraguay against
Brazil, Argentina,
and Uruguay.

Randall Schweller
concludes that
those most likely to
underbalance are

File Type PDF

Randall

incoherent,
fragmented states
whose elites are
constrained by
political
considerations.

"Neoclassical
realism is a major
theoretical
approach to the
study of foreign
policy. Norrin M.
Ripsman, Jeffrey W.

File Type PDF

Randall

Taliaferro, and
Steven E. Lobell
argue that it can
explain and predict
a far broader range
of political
phenomena in
international
politics.

Neoclassical
realism challenges
other approaches,
including structural
realism, liberalism,

File Type PDF

Randall

and Schweller

constructivism"--

Unanswered

Threats

Maxwell's Demon
and the Golden
Apple will appeal to

international
relations.

Unanswered

Threats

The Realism

Reader provides
broad coverage of
a centrally
important tradition
in the study of
foreign policy and
international
politics. After some
years in the
doldrums, political

File Type PDF

Randall

realism is again in contention as a leading tradition in the international relations sub-field. Divided into three main sections, the book covers seven different and distinctive approaches within the realist tradition: classical realism, balance of

File Type PDF

Randall

Schweller
power theory,

neorealism,
Unanswered

defensive

Threats
structural realism,

offensive structural

realism, rise and

fall realism, and

neoclassical

realism. The middle

section of the

volume covers

realism's

engagement with

critiques levelled

File Type PDF

Randall

by liberalism,
institutionalism,
and constructivism
and the English
School. The final
section of the book
provides materials
on realism's
engagement with
some
contemporary
issues in
international
politics, with

File Type PDF

Randall

collections on
United States (U.S.)
hegemony,
European
cooperation, and
whether future
threats will arise
from non-state
actors or the rise of
competing great
powers. The book
offers a logically
coherent and
manageable

File Type PDF

Randall

Schweller
Unanswered
Threats

framework for
organizing the
realist canon, and
provides
exemplary
literature in each of
the traditions and
dialogues which
are included in the
volume. Offering
substantial
commentary and
analysis and
including enhanced

File Type PDF

Randall

pedagogy to facilitate student learning, The Realism Reader will provide a 'one-stop-shop' for undergraduates and masters students taking a course in contemporary international relations theory, with a particular

File Type PDF

Randall

Schweller
focus on realism.

Unanswered

Threats
Scholars frequently
portray the Second

World War as an
epic morality play
driven by a villain
(Hitler) and a
sinner
(Chamberlain).

Deadly Imbalances
offers a new
approach,
combining both the

File Type PDF

Randall

attributes of states
and the structure
of the international
system to explain
the origins and
causes of the war.

Central to
Schweller's
analysis is the
argument that the
structure of the
international
system was tripolar
-- with Germany,

File Type PDF

Randall

the Soviet Union,
and the United
States as the three
central powers --
and that this needs
to be considered in
any examination of
the antecedent
causes and crucial
events of the war.

Experts consider
whether American
primacy will endure

File Type PDF

Randall

or if the future holds a multipolar world of several great powers. The unprecedented military, economic, and political power of the United States has led some observers to declare that we live in a unipolar world in which America enjoys primacy or

File Type PDF

Randall

even hegemony. At the same time, public opinion polls abroad reveal high levels of anti-Americanism, and many foreign governments criticize U.S. policies. Primacy and Its Discontents explores the sources of American primacy,

File Type PDF

Randall

including the uses of U.S. military power, and the likely duration of unipolarity. It offers theoretical arguments for why the rest of the world will—or will not—align against the United States. Several chapters argue that the United States is not

File Type PDF

Randall

immune to the long-standing tendency of states to balance against power, while others contend that wise U.S. policies, the growing role of international institutions, and the spread of liberal democracy can limit anti-American

File Type PDF

Randall

balancing. The final chapters debate whether countries are already engaging in "soft balancing" against the United States. The contributors offer alternative prescriptions for U.S. foreign policy, ranging from vigorous efforts to maintain American

File Type PDF

Unanswered

Threats

First Published in
2004. Routledge is
an imprint of Taylor
& Francis, an
informa company.

How do established
powers react to
growing
competitors? The
United States

File Type PDF

Randall

currently faces a dilemma with regard to China and others over whether to embrace competition and thus substantial present-day costs or collaborate with its rivals to garner short-term gains while letting them become more

File Type PDF

Randall

Schweller. This
problem lends
considerable
urgency to the
lessons to be
learned from Over
the Horizon. David
M. Edelstein
analyzes past rising
powers in his
search for answers
that point the way
forward for the
United States as it

File Type PDF

Randall

Strives to maintain control over its competitors.

Edelstein focuses on the time horizons of political leaders and the effects of long-term uncertainty on decision-making.

He notes how state leaders tend to procrastinate when dealing with long-

File Type PDF

Randall

term threats, hoping instead to profit from short-term cooperation, and are reluctant to act precipitously in an uncertain environment. To test his novel theory, Edelstein uses lessons learned from history's great powers: late

File Type PDF

Randall

nineteenth-century
Germany, the
United States at
the turn of the
twentieth century,
interwar Germany,
and the Soviet
Union at the origins
of the Cold War.
Over the Horizon
demonstrates that
cooperation
between declining
and rising powers

File Type PDF

Randall

is more common than we might think, although declining states may later regret having given upstarts time to mature into true threats.

Neoclassical realism is an important approach to

File Type PDF

Randall

international relations. Focusing on the interaction of the international system and the internal dynamics of states, neoclassical realism seeks to explain the grand strategies of individual states as opposed to recurrent patterns

File Type PDF

Randall

of international
outcomes. This
book offers the first
systematic survey
of the neoclassical
realist approach.
The editors lead a
group of senior and
emerging scholars
in presenting a
variety of
neoclassical realist
approaches to
states' grand

File Type PDF

Randall

Strategies. They examine the central role of the 'state' and seek to explain why, how, and under what conditions the internal characteristics of states intervene between their leaders' assessments of international

File Type PDF

Randall

threats and opportunities, and the actual diplomatic, military, and foreign economic policies those leaders are likely to pursue.

Explaining why some states seek the status quo and others seek

File Type PDF

Randall

revision in
international
relations, Davidson
argues that
governments
pursuing revisionist
policies are
responding to
powerful domestic
groups, such as
nationalists and
those in the
military, that
believe they can

File Type PDF

Randall

defeat their rivals.

He draws on examples of

France, Italy and

Great Britain to

enhance

understanding of a

fundamental

source of instability

in international

affairs.
