This book looks at the industrial policies of Southeast Asian economies in their motor vehicle industries from early import substitution to policy-making under the more liberalised WTO policy regime. The book examines how inward automotive investment, especially from Japan, has been affected by policies, and how such investment has promoted industrial development in the late-industrialising economies within ASEAN (Association of Southeast Asian Nations). It provides insights into the automotive industry of Southeast Asia in terms of production volumes, sales volumes, market structure, and trade. Through country case studies, the book is a useful reference and illustrates how industrial policies in Southeast Asia have affected the spread of

motorsports that led her to write *The Stainless Steel Carrot: An Auto Racing Odyssey*. The book profiled young up-and-coming road racer John Morton as he raced the BRE Datsun 510 in the 1971 and 1972 SCCA Trans-Am 2.5 Challenge. John won the championships and continued on a road-racing career that saw dozens of championship level victories around the country and abroad. The book, well regarded among both racers and general audience readers, has been out of print since 1973. Original copies often sell for over \$100 online and at collectors events. Now, thanks to years of requests from fans, and Sylvia's interest in animals, the book is republished with additional material. -- Amazon.com.

A MANUAL FOR CLEANING WOMEN compiles the best work of the legendary short-story writer Lucia Berlin. With the grit of Raymond Carver, the humor of Grace Paley, and a blend of wit and melancholy all her own, Berlin crafts miracles from the everyday, uncovering moments of grace in the
