The Yamaha XT660 is dual-purpose on/off road motorcycles released by Yamaha Motors as a replacement for the XT600. It is a development of the original XT series ('X' stands for 4 strokes, 'T' for TRAIL), a line of motorcycles inspired by those used on the Paris Dakar rally. The first XT was released in 1976.

**2014 Yamaha XT660X | Top Speed**

While stressing the Yamaha XT660X is no competition machine, the men at Yamaha are also at pains to portray it as an urban weapon of the highest order. A glance through the press pack confirms this, with mean and moody urban action shots of riders backing the bike into corners, fully sideways and cool as you like.

In XT660X guise the compression is bumped up to 10.0:1 from the previous XTZ660s 9.2:1. Continuing with the performance theme the new bike benefits from a much changed cylinder head. The new 21% lighter cylinder head has been simplified somewhat with less moving parts but the rocker arms feature roller bearings for the first time on a Yamaha motorcycle. Mechanical losses easily rob power in a ...

Technically speaking the XT660R is a mixture of mainly new and a bit of old. If the number 660 sounds familiar to some then its because in the 90's Yamaha offered a "Super XT" in the shape of the Europe-only, five-valve, water-cooled XTZ660 which also had a full Paris-Dakar style body work with an integral fairing for comfy 100mph flying over dry lakes.

Every red-blooded motorcyclist dreams of making the Big Trip--this updated fifth edition shows them how. Choosing a bike, deciding on a destination, bike preparation, documentation and shipping, trans-continental route outlines across Africa, Asia and Latin America, and back-country riding in SW USA, NW Canada and Australia. Plus--first hand accounts of biking adventures worldwide.

Inside this manual the reader will learn to do routine maintenance, tune-up procedures, engine repair, fuel and exhaust, ignition, brakes, suspension and steering, electrical systems, and more.

The Sibirsky (Siberian) Extreme Project was a 2009 motorcycle adventure project by motorcycle adventurer Walter Colebatch to attempt to go into the ultimate depths of Siberia. The project aimed to push the boundaries of what is known and what is possible in terms of motorcycling in Siberia and hoped to ride new routes and tracks that had yet to be explored by adventure motorcyclists to date. On the ambitious schedule were: - the Tuva Track, a vague boggy unriden route linking the Altai and Tuvan Republics, near the Mongolian border, between the towns of Kosh Agach and Mugur Aksey - the Anabar Road from Lensk to Udachny, an unriden route leading further north in Asia than anyone had ridden before (over 66 degrees North). - the Vilyuisky Trakt, an unriden dirt track only completed in early 2009 that runs 1500 kms east (950 miles) between Lensk, Mirny and Yakutsk. - the legendary BAM Road, 4300 km from Vanino on the Pacific Ocean to Taishet in central Siberia; an abandoned road no motorcyclist had ever even attempted in its entirety, let alone ridden. To many adventurers, the BAM Road is the toughest road on the planet. This book covers the planning, the riding, the struggles, the triumphs and the disappointments of this incredibly challenging itinerary.

Illustrated in full colour throughout, each entry includes a detailed specification table and authoritative performance figures. The line-up features outstanding machines famed for their performance, technical brilliance and good looks.

With a Haynes manual, you can do-it-yourself...from simple maintenance to basic repairs. Haynes writes every book based on a complete teardown of the vehicle, where we learn the best ways to do a job and that makes it quicker, easier and cheaper for you. Haynes books have clear instructions and hundreds of photographs that show each step. Whether you are a beginner or a pro, you can save big with a Haynes manual! This manual features complete coverage for the following Honda models: Honda CBR125R, 2011-17, CBR250R/RA, 2011-14, CBR300R/RA (UK/EURO), 2015-17, CBR300R/RA (US/CAN), 2015-18, CB300F/FA, 2015-18, CRF250L/LA, 2013-18, CRF250M, 2014-15. (It does not cover the CRF250RL Rally or the 2018 UK/Europe CB125R and CB300R.) Routine maintenance Tune-up procedures Engine repair Cooling and heating Air conditioning Fuel and exhaust Emissions control Ignition Brakes Suspension and steering Electrical systems, and Wring diagrams.

The urge has found you daydreaming more than once. The urge to define, bend, shape, fabricate, invent, shove, break. To slide your leg over the seat you finally got back from the leather shop. To twist back the throttle grip you wrapped yourself. To lunge into the darkness of an open highway on a creation all your own. More than a motorcycle, this is about your identity. It's about building something as unique as you are. In The Build, Robert Hoekman Jr compiles insights from today's best builders to help you plot out your own beautiful beast. Loaded with photos, The Build features firsthand advice from the masters of moto design, including John Ryland (Classified Moto), Alan Stulberg (Revival Cycles), Jared Johnson (Holiday Customs), Jarrod DelPrado (DP Customs), and the legendary Max Hazan (Hazan Motorworks). You've seen what can be done. It's time to do it yourself. Get The Build.

A history of the motorcycle, including special features on sport, racing, touring, customised bikes, landmarks, records, and motorcycles in war and at the movies
